Difference between two dates
D1
D2

Diff ----> D2-D1 ---- Wrong Approach

Strptime ---> date & time into parse format

Strptime(D2) - strptime(D1) ----> Diff. b/w two date & time field

Date & time field in splunk which we receive via app. Is a custom field.

Strftime ---> format the date & time field

Transaction ----> Group of event

Session --->

Append / AppendCols ----> It will just attach two dataset
